Tribute

Northern Cross is a tribute to America's first supergroup, Crosby, Stills, Nash and Young. Based in the northeastern U.S., Northern Cross straddles all the genres of popular music encompassed by the eclectic career of CSNY, from country rock to confessional ballads, from acoustic guitars and voice to electric rock and psychedelia, all centered around a perfect replication of the intricate vocal harmonies CSNY is most loved for.

Northern Cross are the standard bearers for the Woodstock counterculture in New England and beyond. With Northern Cross you will relive (or experience for the first time) the gripping emotions of a CSNY live performance, with all the tones and grooves, melodies and moments you would expect from the real thing.

From the intimacy of a living room concert, to the grandeur of a stadium rock show, Northern Cross brings sheer joy to audiences in venues of all sizes.

Northern Cross is available for...

- Full 7 piece rock show with multimedia for larger venues
- 4 piece acoustic shows for intimate venues or house concerts
